

MOBILE COMMAND POST & MOBILE OFFICE

COMPANY PRESENTATION

Engineered Land Systems (ELS) is a world leader in design and manufacture of bodies and systems for military and Homeland Security purpose. Our systems and bodies are highly tested on the most challenging terrains. All design, production and quality assurance is managed by our specialized teams in our plant in Spain.

BUILT TO PERFORM

Well-functioning products. Built to perform. And we answer for them. Where all efforts are focused on customer and the end user satisfaction.

INNOVATION

Yes, we can. Express everything you have on your mind. Tell us what you need and if it has not been created yet, we will make it real. Ask us. Test us. Challenge Us.

FLEXIBILITY

Choose HOW, WHEN and WHERE. We adapt to your needs from now on, in contrast to mega corporations which cannot do it.

WORLDWIDE

Think Global, Act Local. NO DISTANCES - NO LIMITS We are International. We have born, grown and learned from it. We are closer than you can imagine.

ELS COMMAND POST & MOBILE OFFICE

**HEAVY DUTY
VEHICLE**

**MEDIUM
VEHICLE**

**LIGHT
VEHICLE**

1 BODY CONFIGURATION

ELS is synonymous of flexibility. For that, we can design your command post or mobile office in any configuration (heavy duty, medium or light vehicle) and integrate in any chassis.

Some accessories can be added to a standard body:

- Tail lift
